NEWS RELEASE FOR IMMEDIATE RELEASE

Richmond Amateur Radio Club to Host Third Annual 'DISCOVER AMATEUR RADIO' Seminar on November 10, 2018 at Steveston Community Centre

Richmond, B.C. (Oct. 4, 2018) – The Richmond Amateur Radio Club (RARC) will be hosting its third annual 'Discover Amateur Radio' seminar on Sat., Nov. 10, 2018 at the Steveston Community Centre on 4111 Moncton St. in Richmond.

The seminar brings together experienced radio Amateurs to share topics of interest with local radio operators from the local Amateur radio community, newly licensed hams who want to learn more about the hobby, and the interested public who want to discover Amateur radio. The day-long event from 9 am to 4 pm will involve concurrent sessions using two rooms to accommodate a more extensive agenda. Admission remains at \$5 (payable at the door) to help cover room rental and beverage expenses.

"The seminar provides a unique forum for the local Amateur radio community to come together and exchange knowledge and experiences in a face-to-face environment," says Urey Chan, founder and organizer of the event. "The presentations and discussion panels enable 'seasoned hams' to interact with those interested in learning more about the hobby, therefore, cultivating a stronger foundation for the future of Amateur radio."

The agenda ranges from 'how-to' topics for newly licensed hams, latest technology developments in Amateur radio, and current trends in how Amateur radio serves the local community. A draft seminar agenda is now on the RARC events Web page with future updates to be posted at:
